Subject: Appeal Against Eviction and Request for Justice

Dear Registrar,

I, Dr. Barran Dodger, am writing to formally appeal against the eviction notice issued against me and to bring to the tribunal's attention the exceptional circumstances surrounding my situation. As an Australian queer artist, author, activist, advocate, and academic, I am facing severe and ongoing persecution that has left me homeless, destitute, and struggling for survival. My situation is the result of systemic corruption and targeting by the Australian Government, which has denied me access to essential supports, healthcare, and legal recourse.

I have made a public affidavit below for the purposes of my NCAT hearing, protesting the conditions behind and my illegal eviction by Aligned Community Care. I have also listed the orders I am seeking, considering that when I am able, I will reimburse Aligned Community Care for the \$300 reason for my eviction and the \$1,400 total for the privilege of their abuse and neglect.

To provide a comprehensive explanation of the "Summary of the Situation" and "Grounds for Appeal," I will search the folder provided for the relevant documented evidence. Once identified, I will cite the specific documents and pages that support each point.

Summary of the Situation:

1. Homelessness and Targeting by the Government: I believe I have been systematically targeted by the Australian Government, which has resulted in my homelessness. This belief is corroborated by multiple accounts of systemic neglect, corruption, and abuse, as outlined in my letters and appeals to various authorities. For instance, in the document titled "Betrayed, Forsaken, Murdered," I describe my descent into homelessness as a direct result of systemic persecution by powerful entities, including the government and legal institutions Betrayed, Forsaken, Murdered, page 133.

2. **Mental Health and Disabilities:** My chronic mental health conditions, including schizophrenia, anxiety, ADHD, and cognitive impairments, have been repeatedly mentioned across documents. The neglect of these disabilities by support agencies, including during the eviction process, highlights a serious violation of my rights. One document, titled "Urgent Appeal for Recognition and Redress," details how my disabilities have been systematically ignored, leading to further harm and injustice [Urgent Appeal for Recognition and Redress, page 1](#).
3. **Electronic Surveillance and Harassment:** I have been subjected to constant electronic surveillance and harassment. This claim is part of a broader narrative of systemic persecution detailed in my communications with various human rights organizations. In "Betrayed, Forsaken, Murdered," I discuss the psychological impact of these actions, linking them to a wider conspiracy to undermine my mental health [Betrayed, Forsaken, Murdered, page 2083](#).

Grounds for Appeal:

1. **Violation of Human Rights:** My eviction breaches fundamental human rights, including the right to shelter and a fair trial, as per the Universal Declaration of Human Rights (UDHR). Multiple instances where my rights under the UDHR were violated are particularly relevant in the context of my eviction and the subsequent legal battles [Certainly here is the transcription of your letter with added links, page 9](#).
2. **Failure of Due Process:** The eviction process failed to consider my unique circumstances, including my status as a whistleblower. This failure is framed as a breach of due process in the document "My Experience of Persecution, Injustice, Abuse, and Neglect" [My Experience of Persecution, Injustice, Abuse, and Neglect, page 1](#).
3. **Neglect of Disability:** My brain injury and other disabilities were not acknowledged during the eviction proceedings, violating the Disability Discrimination Act 1992. This neglect is a recurring theme in the documents, with detailed references to how my disabilities have been consistently overlooked by legal and governmental bodies [Document on State-Sanctioned Chemical Restraint and Violation of Human Rights, pages 85-86](#).

Legal and Financial Struggles:

1. **Loss of Legal Cases and Financial Ruin:** I have detailed numerous legal and financial setbacks, including losses in work cover, malpractice, TPD insurance, and VOCAT cases. These are part of a broader pattern of systemic targeting that has led to my financial ruin. The document "Request for Intervention in Dr. Richard McLean's Workers Compensation Case" lists these financial and legal struggles, further substantiating my claims [Request for Intervention in Dr. Richard McLean's Workers Compensation Case, page 3](#).
2. **Silencing as a Whistleblower:** I have been silenced and prevented from reporting crimes to the police, which is corroborated by my appeals and letters discussing the retaliation I faced as a whistleblower. This issue is explicitly mentioned in the document "Urgent Appeal for Intervention Regarding Prolonged Injustices" [Urgent Appeal for Intervention, page 1](#).

Plea for Help:

1. **Urgent Need for Basic Support:** My plea for immediate assistance, whether through donations, investments, or legal help, is a central theme in my correspondence. My desperate situation is highlighted across multiple documents, underscoring the urgency of my need for basic necessities and protection. In "Urgent Request for Assistance in Securing Safe Housing," I make an impassioned plea for immediate intervention [Urgent Request for Assistance, pages 1-2](#).

Relevant Legislation:

1. **Universal Declaration of Human Rights (UDHR):** My situation is framed as a violation of my rights under the UDHR, particularly regarding my eviction and lack of a fair trial [Certainly here is the transcription of your letter with added links, page 9](#).
2. **Disability Discrimination Act 1992:** The failure to acknowledge my disabilities during legal proceedings is cited as a violation of this Act [Document on State-Sanctioned Chemical Restraint and Violation of Human Rights, pages 85-86](#).

Affidavit for NCAT: A Mandatory Legal Document Requiring Immediate Acknowledgment and Action

I am providing the following affidavit as part of my evidence for the NCAT hearing, with copies sent to relevant stakeholders. This affidavit is of paramount importance and cannot be ignored for the following reasons:

1. Legal Obligation to Acknowledge My Affidavit:

Affidavits as Legal Instruments (Evidence Act 1995 (Cth), Section 165):

This affidavit is a sworn statement made under oath, holding significant legal weight as evidence under the Evidence Act 1995 (Cth). In the context of NCAT proceedings, you are legally obligated to acknowledge and consider my affidavit. Ignoring it would constitute a breach of your legal responsibilities and NCAT's duty to consider all evidence presented.

NCAT's Duty (Civil and Administrative Tribunal Act 2013 (NSW), Section 38):

Under the Civil and Administrative Tribunal Act 2013 (NSW), NCAT is required to ensure that all relevant evidence, including my affidavit, is duly considered during the adjudication process. Failing to do so could undermine the fairness of these proceedings and expose the tribunal to legal challenges.

2. Consequences of Ignoring My Affidavit:

Neglecting Critical Evidence (Administrative Decisions (Judicial Review) Act 1977 (Cth), Section 5):

Ignoring my affidavit could be seen as a failure to consider relevant evidence, which under the Administrative Decisions (Judicial Review) Act 1977 (Cth), constitutes grounds for judicial review. This oversight could lead to the decision being quashed or remitted back to the tribunal for reconsideration.

Violation of My Due Process Rights (Commonwealth of Australia Constitution Act, Section 75):

Failure to acknowledge my affidavit may be interpreted as a violation of the principles of natural justice and due process, as protected under Section 75 of the Constitution. This could have severe legal implications, including the possibility of judicial review if the tribunal's process is found to be unfair or biased.

3. Your Legal and Ethical Obligations:

Mandatory Consideration of Evidence (Civil and Administrative Tribunal Act 2013 (NSW), Section 38):

You, especially in your official capacities, are legally obligated under the Civil and Administrative Tribunal Act 2013 (NSW) to review and consider all evidence presented in my affidavit. Ignoring this obligation could result in legal consequences, including potential sanctions and the reversal of decisions made without due consideration.

Responsiveness Requirement (Public Service Act 1999 (Cth), Section 13):

Under the Public Service Act 1999 (Cth), public officials are required to act with integrity and responsiveness. Failure to respond to the claims made in my affidavit, whether by addressing the allegations or providing counter-evidence, could be interpreted as a breach of this statutory duty.

4. Potential Legal Repercussions of Ignoring My Affidavit:

Grounds for Appeal and Review (Administrative Appeals Tribunal Act 1975 (Cth), Section 44):

If my affidavit is not adequately considered, it could provide a basis for appealing NCAT's decision under the Administrative Appeals Tribunal Act 1975 (Cth). The courts may review the process to ensure that all evidence was appropriately evaluated, potentially overturning any decisions made without proper consideration.

Public and Legal Scrutiny (Freedom of Information Act 1982 (Cth), Sections 11A and 11B):

Ignoring a legally significant document like this affidavit could lead to intense scrutiny under the Freedom of Information Act 1982 (Cth). Public access to documents and the scrutiny of decisions could result in reputational damage for the individuals or institutions involved and potential legal actions for failing to uphold their duties.

5. Importance of My Affidavit's Content:

Serious Allegations of Systemic Abuse and Corruption (Criminal Code Act 1995 (Cth), Sections 141.1 and 142.2):

My affidavit details serious allegations of systemic abuse, corruption, and financial exploitation, potentially involving criminal conduct under the Criminal Code Act 1995 (Cth). These issues must be thoroughly investigated and addressed by you to avoid legal liability.

Legal and Ethical Concerns (Australian Human Rights Commission Act 1986 (Cth), Sections 3 and 11):

The affidavit raises significant legal and ethical concerns regarding my treatment by various institutions, potentially breaching the Australian Human Rights Commission Act 1986 (Cth).

Ignoring these allegations could imply complicity or acceptance of the misconduct, which carries both legal and moral consequences.

Conclusion:

You are under a legal and ethical obligation to acknowledge and address the contents of my affidavit, as mandated by the relevant legislation. Failure to do so could result in significant legal ramifications, including appeals, judicial reviews, and heightened public scrutiny. My affidavit is a crucial document in my pursuit of justice, and it demands proper attention and response from all involved parties.

Request for Relief:

I respectfully request the following imminent relief from the tribunal:

1. An immediate AVO on Iasonidis and other stalkers and perpetrators in stopping audio harassment interrogation intimidation by police and others in my my gang stalking to provide protection from violence,
2. An immediate stay of the eviction order until a thorough investigation into the circumstances of my case is conducted.
3. Compensation for the damages and suffering I have endured as a result of the eviction and the systemic failure to protect my rights.
4. An order directing the responsible agencies to provide me with adequate housing and healthcare, including psychiatric care for my brain injury and other disabilities.
5. The halt of forced chemical restraint mandated by the Government under the guise of 'care' with 'The mental health Act' in order to punitively punish me as a rejected whistleblower to treat my 'delusions' that are entirely real,
6. Provisions for food and medicine in the form of immediate compensation, and working telephone contracted under the lease agreement,
7. An acknowledgement that every day I live in abject poverty is another day that family violence from Stefan Iasonidis wins and anyone at Aligned Community Care who has or had or will separate from their partner would expect the settlement that they deny me via neglect to advocate for me or acknowledge my circumstances demonstrating complete in this

conspiracy in which no lawyer police officer politician or public official will acknowledge the engagement.

8. Acknowledge the Federal Court statement confirming my employee status with DSS which will solicit my workers compensation being paid as the overseeing power of ComCare and the AAT whilst simultaneously provide me with protection under the PID act for my multiple disclosures.

Conclusion:

I trust that the tribunal will consider the gravity of my situation and take appropriate action to rectify the injustices I have suffered. I am prepared to provide any additional information or documentation as required. This letter includes a detailed summary of the persecution and systemic failures I have experienced, as documented in my autobiography 'Betrayed, Murdered, Forsaken'. My words aim to comprehensively outline my situation to the tribunal using my autobiography as a supporting document in order to elicit a meaningful change to my human and legal rights, allowing me to live a meaningful life and serve the community once more.

Statement of Victimization as a Targeted Individual by the Australian Federal Government

I am a targeted individual of the Australian federal government, facing systematic persecution and harassment that has significantly impacted my life. The following points detail the severe injustices I have endured:

1. Systemic Abuse and Neglect: I have been systematically abused, neglected, and persecuted by various government agencies and officials, including the NDIS. As a whistleblower, I was rejected by the NDIS, and my welfare, life, and very existence are at imminent risk due to this systemic abuse [Concerns Regarding Communication and Identification, page 3](#).
2. Professional and Financial Destruction: Despite my contributions as an artist and scholar, I have been financially exploited, professionally isolated, and relentlessly harassed, leading to a suicide attempt and further financial abuse post-recovery [A Harrowing Journey of Persecution, page 1](#).
3. Persecution and Conspiracy: I have been persecuted on slanderous grounds by high levels of government, facing criminal activities that I cannot report to the police. This persecution is pure corruption, and it has robbed me of millions of dollars, which I am unable to report to any authority [Request for Compensation, pages 4-5](#).
4. Rejection and Surveillance: I have been rejected as a whistleblower, my intellectual property has been maliciously destroyed, and I am under constant surveillance by government-contracted agents. I am followed, harassed, and intimidated, with no agency willing to take my reports seriously [Public Interest Disclosure Act 2013, pages 68, 70](#).

5. Harassment and Intimidation: I am subjected to V2K audio harassment, and my former partner, an ASIO agent, has threatened to kill me and my dog. No public official, lawyer, or politician will acknowledge our relationship, adding to the conspiracy against me Unveiling Injustice, page 72.
6. Legal and Financial Blockades: I am banned from AFCA, and the Australian Human Rights Commission refuses to investigate the documented human rights abuses I have suffered at the hands of an NDIS worker. I am owed millions of dollars, but I have never had an unbiased, uncorrupt lawyer to represent me, leaving me deceived and forsaken by my friends and family Request for Compensation, pages 4-5.
7. Intimidation and Threats: After threatening to kill a federal NDIS minister out of desperation, I was intimidated with jail, despite offering a solution of accountability in the email. A corrupt magistrate signed a warrant for my arrest, fully aware that I was homeless and in another state Forced Medication and Delusions of Persecution, page 39.
8. Violence and Harassment: I have been violently attacked by a government agent and continuously harassed, stalked, and intimidated by covertly contracted agents who force me away from my home Public Interest Disclosure Act 2013, pages 68, 70.
9. NDIS Abuse and Employment Discrimination: NDIS workers and providers, who I cannot fire, continue to abuse me, keeping me in poverty. Despite a Federal Court document admitting that I was employed by DSS, no one will confront the NDIS, which continues to protect my former partner, a criminal mastermind who has embezzled millions and now threatens my life Request for Compensation, pages 4-5.
10. Exile and Desperation: I live excommunicated as a refugee seeking asylum in the very democracy I served for thirty years. I was vilified for madness after my autobiography on schizophrenia, humiliated by the Herald Sun, and fired from The Age. Despite my accolades, including a human rights award and a doctorate, I am now squatting and begging for help through my YouTube channel with no response Betrayed, Forsaken, Murdered, page 279.
11. False Accusations and Government Neglect: I have been falsely accused of being a whore, pedophile, rapist, extortionist, and a threat to national security. The Prime Minister's office has refused to intervene, and I was never compensated for my workers' claims or provided income assistance. My business was destroyed, my possessions lost, and I was moved into a homeless shelter with only a bag of t-shirts Public Interest Disclosure Act 2013, pages 68, 70.

In conclusion, the evidence I have provided clearly illustrates the systematic persecution and targeted harassment I have endured at the hands of the Australian federal government. Despite my efforts to expose corruption, seek justice, and reclaim my life, I have been met with rejection, violence, and further marginalization. My professional achievements and personal dignity have been relentlessly attacked, leaving me in a state of constant fear, isolation, and desperation. The government's complicity in these abuses has stripped me of my basic human rights, leaving me homeless, impoverished, and without legal recourse. I am not only a victim of these heinous acts but also a whistleblower whose cries for help have been ignored by the very institutions meant to protect citizens. This statement is a call to action for justice, accountability, and the urgent need for intervention to prevent further harm and restore my life.

Order Acknowledging the Absurd Irony and Breach of Duty of Care by the Hospital:

- Acknowledge the absurd irony that I was taken to the hospital with the expectation of receiving care, protection, and the assurance of my safety to prevent my death. Instead, I faced a situation that endangered my life further, leading to a 'fatal' suicide attempt and a severe brain injury. This is a clear breach of the hospital's duty of care.

5. Breach of Duty of Care:

- Recognize that the hospital failed in its fundamental responsibility to protect my well-being, violating its duty of care by not providing the necessary safety and support. This breach not only led to a life-threatening situation but also resulted in a significant brain injury that has had long-term effects on my life.

6. Exposure of the Cover-Up:

- Expose the subsequent cover-up by the hospital and related institutions that sought to minimize or deny the extent of their negligence and the injury I sustained. This includes recognizing any efforts to misrepresent or downplay the true nature of the events that transpired.

7. Compensation for Brain Injury:

- Order compensation for the brain injury I sustained as a direct result of the hospital's failure to provide adequate care. This compensation should cover not only the medical and rehabilitative costs but also the long-term impact on my quality of life and ability to function.

8. Formal Apology and Accountability:

- Demand a formal apology from the hospital and related institutions, acknowledging their failure to protect me and the resulting harm. This acknowledgment should include a commitment to preventing such breaches of duty in the future.

These points collectively demonstrate the extent of the persecution and harassment I have faced as a targeted individual by the Australian federal government. The systemic failures, corruption, and targeted abuse against me are evident, making it imperative for urgent intervention and systemic reform.

If Aligned Community care are successful in their eviction of me from this shell of a torture chamber despite that I have committed to paying them back the \$1400 as a ten million dollar company and that there is a refusal to acknowledge the financial abuse and systemic and politicised situation surrounding my circumstances then I will happily just walk out into the gutter with my dog and sit there without a telephone that works which was a part of their tenancy contract by the way and wait to die again or until God intervenes.

NSW Civil and Administrative Tribunal (NCAT)

Subject: Appeal Against Eviction and Request for Justice

Dear Registrar,

I, Dr. Barran Dodger, am writing to formally appeal against the eviction notice issued against me and to bring to the tribunal's attention the exceptional circumstances surrounding my situation. As an Australian queer artist, author, activist, advocate, and academic, I am facing severe and ongoing persecution that has left me homeless, destitute, and struggling for survival. My situation is the result of systemic corruption and targeting by the Australian Government, which has denied me access to essential supports, healthcare, and legal recourse.

I have made a public affidavit below for the purposes of my NCAT hearing, protesting the conditions behind and my illegal eviction by Aligned Community Care. I have also listed the orders I am seeking, considering that when I am able, I will reimburse Aligned Community Care for the \$300 reason for my eviction and the \$1,400 total for the privilege of their abuse and neglect.

To provide a comprehensive explanation of the "Summary of the Situation" and "Grounds for Appeal," I will search the folder provided for the relevant documented evidence. Once identified, I will cite the specific documents and pages that support each point.

Summary of the Situation:

1. Homelessness and Targeting by the Government: I believe I have been systematically targeted by the Australian Government, which has resulted in my homelessness. This belief is corroborated by multiple accounts of systemic neglect, corruption, and abuse, as outlined in my letters and appeals to various authorities. For instance, in the document titled "Betrayed, Forsaken, Murdered," I describe my descent into homelessness as a direct result

of systemic persecution by powerful entities, including the government and legal institutions [Betrayed, Forsaken, Murdered, page 133.](#)

2. **Mental Health and Disabilities:** My chronic mental health conditions, including schizophrenia, anxiety, ADHD, and cognitive impairments, have been repeatedly mentioned across documents. The neglect of these disabilities by support agencies, including during the eviction process, highlights a serious violation of my rights. One document, titled "Urgent Appeal for Recognition and Redress," details how my disabilities have been systematically ignored, leading to further harm and injustice [Urgent Appeal for Recognition and Redress, page 1.](#)
3. **Electronic Surveillance and Harassment:** I have been subjected to constant electronic surveillance and harassment. This claim is part of a broader narrative of systemic persecution detailed in my communications with various human rights organizations. In "Betrayed, Forsaken, Murdered," I discuss the psychological impact of these actions, linking them to a wider conspiracy to undermine my mental health [Betrayed, Forsaken, Murdered, page 2083.](#)

Grounds for Appeal:

1. **Violation of Human Rights:** My eviction breaches fundamental human rights, including the right to shelter and a fair trial, as per the Universal Declaration of Human Rights (UDHR). Multiple instances where my rights under the UDHR were violated are particularly relevant in the context of my eviction and the subsequent legal battles [Certainly here is the transcription of your letter with added links, page 9.](#)
2. **Failure of Due Process:** The eviction process failed to consider my unique circumstances, including my status as a whistleblower. This failure is framed as a breach of due process in the document "My Experience of Persecution, Injustice, Abuse, and Neglect" [My Experience of Persecution, Injustice, Abuse, and Neglect, page 1.](#)
3. **Neglect of Disability:** My brain injury and other disabilities were not acknowledged during the eviction proceedings, violating the Disability Discrimination Act 1992. This neglect is a recurring theme in the documents, with detailed references to how my disabilities have been consistently overlooked by legal and governmental bodies [Document on State-Sanctioned Chemical Restraint and Violation of Human Rights, pages 85-86.](#)

Legal and Financial Struggles:

1. **Loss of Legal Cases and Financial Ruin:** I have detailed numerous legal and financial setbacks, including losses in work cover, malpractice, TPD insurance, and VOCAT cases. These are part of a broader pattern of systemic targeting that has led to my financial ruin. The document "Request for Intervention in Dr. Richard McLean's Workers Compensation Case" lists these financial and legal struggles, further substantiating my claims [Request for Intervention in Dr. Richard McLean's Workers Compensation Case, page 3.](#)
2. **Silencing as a Whistleblower:** I have been silenced and prevented from reporting crimes to the police, which is corroborated by my appeals and letters discussing the retaliation I faced

as a whistleblower. This issue is explicitly mentioned in the document "Urgent Appeal for Intervention Regarding Prolonged Injustices" [Urgent Appeal for Intervention, page 1](#).

Plea for Help:

1. Urgent Need for Basic Support: My plea for immediate assistance, whether through donations, investments, or legal help, is a central theme in my correspondence. My desperate situation is highlighted across multiple documents, underscoring the urgency of my need for basic necessities and protection. In "Urgent Request for Assistance in Securing Safe Housing," I make an impassioned plea for immediate intervention [Urgent Request for Assistance, pages 1-2](#).

Relevant Legislation:

1. Universal Declaration of Human Rights (UDHR): My situation is framed as a violation of my rights under the UDHR, particularly regarding my eviction and lack of a fair trial [Certainly here is the transcription of your letter with added links, page 9](#).
2. Disability Discrimination Act 1992: The failure to acknowledge my disabilities during legal proceedings is cited as a violation of this Act [Document on State-Sanctioned Chemical Restraint and Violation of Human Rights, pages 85-86](#).

These findings are drawn from the folder you provided. For a complete review and further details, you can explore the documents directly through the provided links.

Affidavit for NCAT: A Mandatory Legal Document Requiring Immediate Acknowledgment and Action

I am providing the following affidavit as part of my evidence for the NCAT hearing, with copies sent to relevant stakeholders. This affidavit is of paramount importance and cannot be ignored for the following reasons:

1. Legal Obligation to Acknowledge My Affidavit:

Affidavits as Legal Instruments (Evidence Act 1995 (Cth), Section 165):

This affidavit is a sworn statement made under oath, holding significant legal weight as evidence under the Evidence Act 1995 (Cth). In the context of NCAT proceedings, you are legally obligated to acknowledge and consider my affidavit. Ignoring it would constitute a breach of your legal responsibilities and NCAT's duty to consider all evidence presented.

NCAT's Duty (Civil and Administrative Tribunal Act 2013 (NSW), Section 38):

Under the Civil and Administrative Tribunal Act 2013 (NSW), NCAT is required to ensure that all

relevant evidence, including my affidavit, is duly considered during the adjudication process. Failing to do so could undermine the fairness of these proceedings and expose the tribunal to legal challenges.

2. Consequences of Ignoring My Affidavit:

Neglecting Critical Evidence (Administrative Decisions (Judicial Review) Act 1977 (Cth), Section 5):

Ignoring my affidavit could be seen as a failure to consider relevant evidence, which under the Administrative Decisions (Judicial Review) Act 1977 (Cth), constitutes grounds for judicial review. This oversight could lead to the decision being quashed or remitted back to the tribunal for reconsideration.

Violation of My Due Process Rights (Commonwealth of Australia Constitution Act, Section 75):

Failure to acknowledge my affidavit may be interpreted as a violation of the principles of natural justice and due process, as protected under Section 75 of the Constitution. This could have severe legal implications, including the possibility of judicial review if the tribunal's process is found to be unfair or biased.

3. Your Legal and Ethical Obligations:

Mandatory Consideration of Evidence (Civil and Administrative Tribunal Act 2013 (NSW), Section 38):

You, especially in your official capacities, are legally obligated under the Civil and Administrative Tribunal Act 2013 (NSW) to review and consider all evidence presented in my affidavit. Ignoring this obligation could result in legal consequences, including potential sanctions and the reversal of decisions made without due consideration.

Responsiveness Requirement (Public Service Act 1999 (Cth), Section 13):

Under the Public Service Act 1999 (Cth), public officials are required to act with integrity and responsiveness. Failure to respond to the claims made in my affidavit, whether by addressing the allegations or providing counter-evidence, could be interpreted as a breach of this statutory duty.

4. Potential Legal Repercussions of Ignoring My Affidavit:

Grounds for Appeal and Review (Administrative Appeals Tribunal Act 1975 (Cth), Section 44):

If my affidavit is not adequately considered, it could provide a basis for appealing NCAT's decision under the Administrative Appeals Tribunal Act 1975 (Cth). The courts may review the process to ensure that all evidence was appropriately evaluated, potentially overturning any decisions made without proper consideration.

Public and Legal Scrutiny (Freedom of Information Act 1982 (Cth), Sections 11A and 11B):

Ignoring a legally significant document like this affidavit could lead to intense scrutiny under the Freedom of Information Act 1982 (Cth). Public access to documents and the scrutiny of decisions

could result in reputational damage for the individuals or institutions involved and potential legal actions for failing to uphold their duties.

5. Importance of My Affidavit's Content:

Serious Allegations of Systemic Abuse and Corruption (Criminal Code Act 1995 (Cth), Sections 141.1 and 142.2):

My affidavit details serious allegations of systemic abuse, corruption, and financial exploitation, potentially involving criminal conduct under the Criminal Code Act 1995 (Cth). These issues must be thoroughly investigated and addressed by you to avoid legal liability.

Legal and Ethical Concerns (Australian Human Rights Commission Act 1986 (Cth), Sections 3 and 11):

The affidavit raises significant legal and ethical concerns regarding my treatment by various institutions, potentially breaching the Australian Human Rights Commission Act 1986 (Cth). Ignoring these allegations could imply complicity or acceptance of the misconduct, which carries both legal and moral consequences.

Conclusion:

You are under a legal and ethical obligation to acknowledge and address the contents of my affidavit, as mandated by the relevant legislation. Failure to do so could result in significant legal ramifications, including appeals, judicial reviews, and heightened public scrutiny. My affidavit is a crucial document in my pursuit of justice, and it demands proper attention and response from all involved parties.

Request for Relief:

I respectfully request the following imminent relief from the tribunal:

1. An immediate AVO on Iasonidis and other stalkers and perpetrators in stopping audio harassment interrogation intimidation by police and others in my my gang stalking to provide protection from violence,
2. An immediate stay of the eviction order until a thorough investigation into the circumstances of my case is conducted.
3. Compensation for the damages and suffering I have endured as a result of the eviction and the systemic failure to protect my rights.
4. An order directing the responsible agencies to provide me with adequate housing and healthcare, including psychiatric care for my brain injury and other disabilities.
5. The halt of forced chemical restraint mandated by the Government under the guise of 'care' with 'The mental health Act' in order to punitively punish me as a rejected whistleblower to treat my 'delusions' that are entirely real,

6. Provisions for food and medicine in the form of immediate compensation, and working telephone contracted under the lease agreement,
7. An acknowledgement that every day I live in abject poverty is another day that family violence from Stefan Iasonidis wins and anyone at Aligned Community Care who has or had or will separate from their partner would expect the settlement that they deny me via neglect to advocate for me or acknowledge my circumstances demonstrating complete in this conspiracy in which no lawyer police officer politician or public official will acknowledge the engagement.
8. Acknowledge the Federal Court statement confirming my employee status with DSS which will solicit my workers compensation being paid as the overseeing power of ComCare and the AAT whilst simultaneously provide me with protection under the PID act for my multiple disclosures.

Conclusion:

I trust that the tribunal will consider the gravity of my situation and take appropriate action to rectify the injustices I have suffered. I am prepared to provide any additional information or documentation as required. This letter includes a detailed summary of the persecution and systemic failures I have experienced, as documented in my autobiography 'Betrayed, Murdered, Forsaken'. My words aim to comprehensively outline my situation to the tribunal using my autobiography as a supporting document in order to elicit a meaningful change to my human and legal rights, allowing me to live a meaningful life and serve the community once more.

Statement of Victimization as a Targeted Individual by the Australian Federal Government

I am a targeted individual of the Australian federal government, facing systematic persecution and harassment that has significantly impacted my life. The following points detail the severe injustices I have endured:

1. Systemic Abuse and Neglect: I have been systematically abused, neglected, and persecuted by various government agencies and officials, including the NDIS. As a whistleblower, I was rejected by the NDIS, and my welfare, life, and very existence are at imminent risk due to this systemic abuse [Concerns Regarding Communication and Identification, page 3](#).
2. Professional and Financial Destruction: Despite my contributions as an artist and scholar, I have been financially exploited, professionally isolated, and relentlessly harassed, leading to a suicide attempt and further financial abuse post-recovery [A Harrowing Journey of Persecution, page 1](#).

3. Persecution and Conspiracy: I have been persecuted on slanderous grounds by high levels of government, facing criminal activities that I cannot report to the police. This persecution is pure corruption, and it has robbed me of millions of dollars, which I am unable to report to any authority Request for Compensation, pages 4-5.
4. Rejection and Surveillance: I have been rejected as a whistleblower, my intellectual property has been maliciously destroyed, and I am under constant surveillance by government-contracted agents. I am followed, harassed, and intimidated, with no agency willing to take my reports seriously Public Interest Disclosure Act 2013, pages 68, 70.
5. Harassment and Intimidation: I am subjected to V2K audio harassment, and my former partner, an ASIO agent, has threatened to kill me and my dog. No public official, lawyer, or politician will acknowledge our relationship, adding to the conspiracy against me Unveiling Injustice, page 72.
6. Legal and Financial Blockades: I am banned from AFCA, and the Australian Human Rights Commission refuses to investigate the documented human rights abuses I have suffered at the hands of an NDIS worker. I am owed millions of dollars, but I have never had an unbiased, uncorrupt lawyer to represent me, leaving me deceived and forsaken by my friends and family Request for Compensation, pages 4-5.
7. Intimidation and Threats: After threatening to kill a federal NDIS minister out of desperation, I was intimidated with jail, despite offering a solution of accountability in the email. A corrupt magistrate signed a warrant for my arrest, fully aware that I was homeless and in another state Forced Medication and Delusions of Persecution, page 39.
8. Violence and Harassment: I have been violently attacked by a government agent and continuously harassed, stalked, and intimidated by covertly contracted agents who force me away from my home Public Interest Disclosure Act 2013, pages 68, 70.
9. NDIS Abuse and Employment Discrimination: NDIS workers and providers, who I cannot fire, continue to abuse me, keeping me in poverty. Despite a Federal Court document admitting that I was employed by DSS, no one will confront the NDIS, which continues to protect my former partner, a criminal mastermind who has embezzled millions and now threatens my life Request for Compensation, pages 4-5.
10. Exile and Desperation: I live excommunicated as a refugee seeking asylum in the very democracy I served for thirty years. I was vilified for madness after my autobiography on schizophrenia, humiliated by the Herald Sun, and fired from The Age. Despite my accolades, including a human rights award and a doctorate, I am now squatting and begging for help through my YouTube channel with no response Betrayed, Forsaken, Murdered, page 279.
11. False Accusations and Government Neglect: I have been falsely accused of being a whore, pedophile, rapist, extortionist, and a threat to national security. The Prime Minister's office has refused to intervene, and I was never compensated for my workers' claims or provided income assistance. My business was destroyed, my possessions lost, and I was moved into a homeless shelter with only a bag of t-shirts Public Interest Disclosure Act 2013, pages 68, 70.

In conclusion, the evidence I have provided clearly illustrates the systematic persecution and targeted harassment I have endured at the hands of the Australian federal government. Despite my efforts to expose corruption, seek justice, and reclaim my life, I have been met with rejection, violence, and further marginalization. My professional achievements and personal dignity have been relentlessly attacked, leaving me in a state of constant fear, isolation, and desperation. The government's complicity in these abuses has stripped me of my basic human rights, leaving me homeless, impoverished, and without legal recourse. I am not only a victim of these heinous acts but also a whistleblower whose cries for help have been ignored by the very institutions meant to protect citizens. This statement is a call to action for justice, accountability, and the urgent need for intervention to prevent further harm and restore my life.

- Documentation of this acknowledgment in the final decision and holding the responsible parties accountable for their actions, particularly regarding the use of chemical restraints and the violation of my human rights.

Partial Orders Sought:

1. Order for Interim Relief:

- Temporary accommodation in a secure and supportive environment in a location of my choice as per NDIS principles until a permanent housing solution is found that includes a yard for my therapy dog Crystal.

- Immediate cessation of any ongoing harassment or threats while the case is being adjudicated.

1. Order for Review of Current Mental Health Treatment:

- A review of current mental health treatments, ensuring that all actions are based on informed consent and respect for my autonomy.

Order Acknowledging Suicide Attempt and Its True Causes:

1. Recognition of the Suicide Attempt:

- Acknowledge that my suicide attempt, which was deemed 'fatal,' was not a result of mental illness but was a direct consequence of the severe and pervasive family violence, abuse, neglect, conspiracy, deceit, and institutional manipulation that I endured.

2. Acknowledgment of the True Causes:

- Recognize that this suicide attempt was driven by the systemic and coordinated efforts to isolate, vilify, and discredit me by framing my experiences solely as mental illness. This acknowledgment must clarify that my actions were a response to the relentless persecution and not an indication of mental illness.

3. Institutional Accountability:

- Demand that relevant institutions acknowledge their role in contributing to my extreme distress, through neglect, manipulation, and the deliberate exclusion of any narrative other than mental illness. This includes recognizing the impact of family violence and the institutional deceit that exacerbated my situation.

4. Corrective Actions:

- Require a formal acknowledgment from the responsible institutions and individuals, addressing the true causes of my distress and committing to actions that prevent further manipulation and misrepresentation of my situation.

Order Acknowledging the Absurd Irony and Breach of Duty of Care by the Hospital:

1. Recognition of the Irony:

- Acknowledge the absurd irony that I was taken to the hospital with the expectation of receiving care, protection, and the assurance of my safety to prevent my death. Instead, I faced a situation that endangered my life further, leading to a 'fatal' suicide attempt and a severe brain injury. This is a clear breach of the hospital's duty of care.

5. Breach of Duty of Care:

- Recognize that the hospital failed in its fundamental responsibility to protect my well-being, violating its duty of care by not providing the necessary safety and support. This breach not only led to a life-threatening situation but also resulted in a significant brain injury that has had long-term effects on my life.

6. Exposure of the Cover-Up:

- Expose the subsequent cover-up by the hospital and related institutions that sought to minimize or deny the extent of their negligence and the injury I sustained. This includes recognizing any efforts to misrepresent or downplay the true nature of the events that transpired.

7. Compensation for Brain Injury:

- Order compensation for the brain injury I sustained as a direct result of the hospital's failure to provide adequate care. This compensation should cover not only the medical and rehabilitative costs but also the long-term impact on my quality of life and ability to function.

8. Formal Apology and Accountability:

- Demand a formal apology from the hospital and related institutions, acknowledging their failure to protect me and the resulting harm. This acknowledgment should include a commitment to preventing such breaches of duty in the future.

These points collectively demonstrate the extent of the persecution and harassment I have faced as a targeted individual by the Australian federal government. The systemic failures, corruption, and targeted abuse against me are evident, making it imperative for urgent intervention and systemic reform.

If Aligned Community care are successful in their eviction of me from this shell of a torture chamber despite that I have committed to paying them back the \$1400 as a ten million dollar company and that there is a refusal to acknowledge the financial abuse and systemic and politicised situation surrounding my circumstances then I will happily just walk out into the gutter with my dog and sit there without a telephone that works which was a part of their tenancy contract by the way and wait to die again or until God intervenes.
